Jimmy Barnes

22 years old

Computer Science Bachelor

Michigan, USA

"Programming is a passion that always pushes you towards new technologies and skills."

About

Jimmy is a bachelor of Computer Science. He is in his third year and has just begun his internship as a technical writer. He is still learning the ropes and is looking for a program to make screenshot taking and editing for technical writing purposes easier.

Likes

- Customizing his applications
- Learning about new technologies
- Sharing his knowledge with others

Dislikes

- Applications with unintuitive UI
- Taking on code debt

Goals

- Creating good technical documentation
- Mastering the tools he uses on a daily basis
- Finding the best way to create and edit screenshots for his documentation
- Finding an easy way to simplify the UI of images
